

THE
CLARION
AT BRAZOSPORT COLLEGE

The CLARION at Brazosport College
is a 29,000-square-foot custom-designed
Music Performance Center.

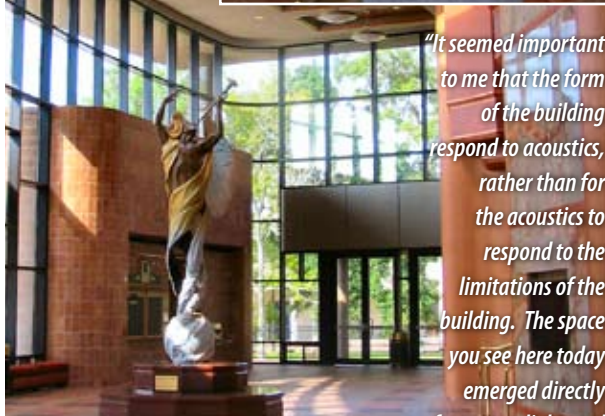

The Center features a 604-seat Performance Hall acoustically designed by the nationally renowned acoustical engineering firm of WJHW [Wrightson, Johnson, Haddon & Williams, Inc.] of Dallas.

'Spirit of Music,' a specially-commissioned bronze sculpture, graces the lobby of The Clarion. The artwork was made possible by a generous donation from arts patron Marguerite Davidson.

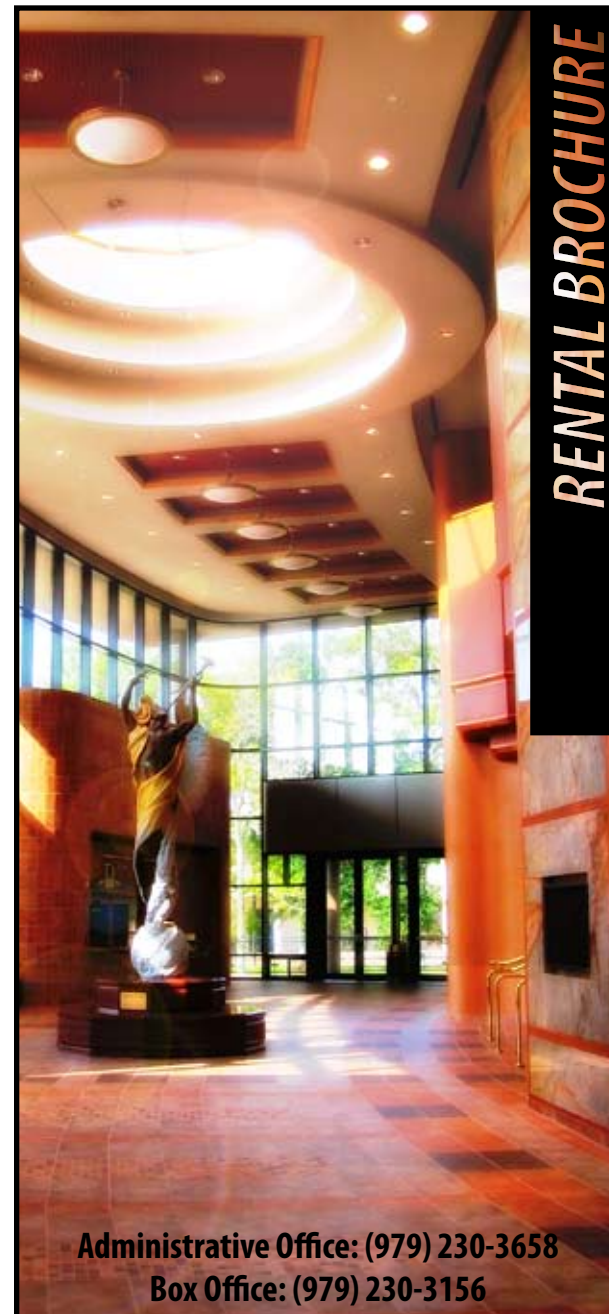

"It seemed important to me that the form of the building respond to acoustics, rather than for the acoustics to respond to the limitations of the building. The space you see here today emerged directly from an enlightened understanding of the requirements of acoustics."

*Raymond Burroughs,
architect*

The Clarion, which opened in October 2005, represents Phase 3 of an ambitious expansion plan for Brazosport College. BC previously completed two other major facilities, the Children's Center and the Corporate Learning Center. Funding came from three primary sources: fees collected by those who use the facility, college reserve funds, and donations from private and corporate donors. When BC launched its first-ever capital campaign in 1999, it set a goal of raising \$5 million in donations. The Brazosport community responded in generous fashion, donating more than \$5.5 million in less than 18 months.
